Albert Jagger selects Kommerling's marine range of sealants & adhesives as the basis of its new marine offering

- **New website launched for boat builders**

Kommerling UK's marine range of sealants, adhesives and other consumables has been selected by Albert Jagger, an established supplier of marine and commercial vehicle components, to form the core of its newly launched marine product range.

Ian Little, Business Manager at Kommerling, said; "We are delighted to be supplying this range of sealants and adhesives to Albert Jagger and believe that this partnership will provide real opportunity for both companies. Boatbuilders and smaller boat yards are all showing signs of recovery and now is the perfect time for Albert Jagger to launch this new range of products and services."

"Many of the products carry the internationally recognised Maritime Organisation Wheel Mark so customers can buy with confidence, knowing that the products will withstand the sometimes punishing conditions experienced on marine vessels," said John Wollaston, Sales Director at Albert Jagger.

For more information about Albert Jagger's full range of marine components and products visit the new web page at www.albertjagger-adhesives.co.uk or visit Kommerling's website www.kommerlinguk.com for information about their full range.

Background

Since its formation in 1887, Albert Jagger Limited has been associated with innovation, excellent service and the highest quality products for vehicles of all types.

Astute management, strategic growth and a constant regard for the needs of its customers have seen the company become one of the largest manufacturers and suppliers to the commercial vehicle bodybuilder, boat builder, agricultural and engineering industries in the UK and a major supplier to many countries world-wide.

Koemmerling Chemische Fabrik GmbH is a leading international manufacturer of high-quality adhesives and sealants. Its European headquarters and extensive research and development facilities are in Pirmasens, Germany and it has a network of subsidiaries, sales offices and sales partners, in more than 80 different countries. Members of the group have over 110 years experience of the development of adhesives and sealants. In particular the company has established itself as an innovative market leader in provision of Polysulfide, Polyurethane, Silicone and Polyisobutylene sealants for the automotive, insulating glass and photovoltaic industries. In 2013 the company became a group member of Royal sealants and adhesives.

Koemmerling Chemische Fabrik has been awarded ISO 9001, ISO 14001 and OHSAS 18001 certification.
